Outcomes of Extension activities in the neighborhood community in terms of impact and sensitizing the students to social issues for their holistic development

Impact and Sensitizing the Students to Social Issues: The impact and sensitization of students to social issues are mapped through their research topics, final-year architectural design projects, jobs, and competitions. These are evaluated based on criteria such as Socially Inclusive Design, Environment and Sustainability, Disaster-Resilient Design, and Conservation of Architectural Heritage.

Framework for Extension Activities: Integration of Extension Activities in the Academics: Curriculum, especially subjects such as architectural design and building construction technology, includes short-term or long-term studio projects in collaboration with different governmental and non-governmental organizations.

Integration of Extension Activities in Extracurricular Activities: Various clubs and cultural events are connected with extension activities. The institution emphasizes community outreach to cultivate empathy, a sense of belonging, social awareness, interpersonal skills, and leadership qualities among students.

SSR 2019-20 to 2023-24	 BRICK SCHOOL OF ARCHITECTURE
Criterion 3 –Research, Innovations and Extensions	
3.4.1: Outcomes of Extension activities in the neighborhood community in terms of impact and sensitizing the students to social issues for their holistic development during the last five years	

Programs offered through the National Service Scheme (NSS), Swachh Bharat Abhiyan, Unnat Bharat Abhiyan, and initiatives addressing gender issues are organized in collaboration with industry, community, government organizations, and NGOs, with active involvement from students and faculty alike.

The NSS unit, established last year, has conducted impactful programs like the Special Campaign “Meri Mati Mera Desh” and World Forest Day, promoting national pride and environmental consciousness. Under Swachh Bharat Abhiyan, the institution organized a “Plagathon” with the Pune Municipal Corporation to enhance community well-being. Addressing gender issues, three programs in collaboration with NGOs advocated for equality. **BRADICL**, the institute's consultancy cell, has led various initiatives on sustainability, urban planning, and heritage management, including school mobility programs and conservation projects like Torna Fort. The "**C Cube Initiatives** (Connect Collaborate Create)" ensure all students participate in social sensitivity projects. Collaborations with the Bernard Van Leer Foundation, TARU, and PMC focus on tactical urban interventions, including child-friendly spaces. 'Vaibhav Katha,' an initiative guided by faculty, raises local history and heritage awareness among school children through interactive sessions. Students also engage in diverse activities, such as packaging products with J&K youth via the Aseem Foundation, fostering interests that integrate into theses and professional practices. Design and Thesis juries involve alumni who contribute to community activities like the “Experiencing Architecture Through Walk and Talk Series.”

The institute's commitment to social responsibility is evident through regular extension activities like Brick Conversations, fostering a sense of moral obligation among students. Participation in social extension activities has profoundly influenced students' academic and professional paths. Many students have chosen **Research topics** sensitive to community and environmental issues, highlighting their commitment to societal welfare. Some have integrated these activities into their **Final-year architectural design projects**, addressing real-world challenges through thoughtful design. This experience has inspired several students to pursue **Careers focused on community work** and environmentally friendly materials, equipping them with the knowledge and skills for sustainable development. Additionally, many students have excelled in various **Competitions**, showcasing their talents and the significant impact of their engagement in social extension activities.

SSR 2019-20 to 2023-24			
Criterion III – Research, Innovations and Extension			
3.4.1: Outcomes of Extension activities in the neighbourhood community in terms of impact and sensitizing the students to social issues for their holistic development during the last five years.			
3.4.1. List of Architectural Design Project (Thesis) showcasing Social issues addressed in their Architectural Design Project [5201968(SV) 2019 Pattern] Fifth Year B.Arch-Sem-X (AY 2023-24)			
S.No	Name of the student	Architectural Design Project (Thesis) Topic	Social Criteria Addressed
1	Karishma Rawool	Landslide resilient architecture for Konkan region	Disaster-Resilient Design
2	Ayushi Sanghvi	Centre for sustainable development	Environment and Sustainability
3	Siddharth Kadam	Tech City of Baramati: A Microcosm of Innovation	Socially Inclusive Design
4	OM KADAM	Reimagining Dadasaheb Phalke Chitranagari : A global hub for Filmmaking	Conservation of architectural heritage
5	Ganesh Mane	Harmony Haven: A Sustainable Wellness Retreat for Urban Dwellers	Environment and Sustainability
6	Ram Kale	Harmonizing Faith and Diplomacy: The United Faiths Complex	Socially Inclusive Design
7	Khushi Lothe	Beyond Care: Transforming Hospital Spaces for Emotional Well-being	Socially Inclusive Design
8	Sandeep Patidar	Urban Fusion: Designing a High-Rise Mix-Use Marvel in Mumbai	Socially Inclusive Design
9	Tanishq Andhale	Driving Growth: Formula 1 Track Design for India's Global Appeal, Amplifying Fan Engagement and Foreign Tourism.	Environment and Sustainability
10	Sourabh Khot	Business-Hub : Redefining Amenities in Business Hub High-Rise Designs.	Environment and Sustainability
11	Kushal Patil	Re- imagining urban dwellings; A case for floating population	Environment and Sustainability
