Internship Completion Letter

Date: November 24<sup>th</sup>, 2020

To: SMEF's BRICK School of Architecture, Pune, India

This is to certify that Ms. Bele Sunil Nigudkar has successfully completed her 6-month academic internship with our company, GIGA, from 4<sup>th</sup> May'20 to 30<sup>th</sup> Oct'20, under the guidance of Ar. Raefer Wallis.

As part of the internship Bela worked primarily as a Research Associate and contributed to key projects such as the development of the RESET Index. She also worked meticulously on collaborations with design firms such as MMoser Associates Library with respect to helping score their product library for health and sustainability attributes, think-tanks such as the Healthy Building Network (HBN) on Common Product Profiles, and mindfulMATERIALS for evaluation of the IGBC GreenPro+ system with HKS India. She was also responsible for researching content for the evolution of modules within the RESET Standard, particularly with respect to water and materials, as well as co-ordinating meetings & tasks with client firms.

Throughout the internship, Bela was consistently diligent in her approach, demonstrating initiative and a tremendous capacity to absorb and make sense of new fields of research. Her work was immediately and continuously useful, done on time and with efficiency. Of equal importance, Bela demonstrated a wonderful work ethic, bringing positivity, competence and an eagerness to learn new things. As part of her projects she was regularly added to meetings with clients and collaborators, often presenting the results of her research to Global Directors and CEOs of multi-nationals and non-profits alike. Finally, she worked seamlessly well with her assigned teams, which included a diversity of cultures and personalities.

We have been lucky and grateful to have had Bela as an intern, particularly given that she has been working on topics that most young architecture students would have found challenging.

We look forward to watching (and hopefully staying connected with) what promises to be a very bright and meaningful career.

Respectfully,

  
Raefer Wallis

Internship Completion Letter

Date: November 24<sup>th</sup>, 2020

To: SMEF's BRICK School of Architecture, Pune, India

This is to certify that Ms. Bele Sunil Nigudkar has successfully completed her 6-month academic internship with our company, GIGA, from 4<sup>th</sup> May'20 to 30<sup>th</sup> Oct'20, under the guidance of Ar. Raefer Wallis.

As part of the internship Bela worked primarily as a Research Associate and contributed to key projects such as the development of the RESET Index. She also worked meticulously on collaborations with design firms such as MMoser Associates Library with respect to helping score their product library for health and sustainability attributes, think-tanks such as the Healthy Building Network (HBN) on Common Product Profiles, and mindfulMATERIALS for evaluation of the IGBC GreenPro+ system with HKS India. She was also responsible for researching content for the evolution of modules within the RESET Standard, particularly with respect to water and materials, as well as co-ordinating meetings & tasks with client firms.

Throughout the internship, Bela was consistently diligent in her approach, demonstrating initiative and a tremendous capacity to absorb and make sense of new fields of research. Her work was immediately and continuously useful, done on time and with efficiency. Of equal importance, Bela demonstrated a wonderful work ethic, bringing positivity, competence and an eagerness to learn new things. As part of her projects she was regularly added to meetings with clients and collaborators, often presenting the results of her research to Global Directors and CEOs of multi-nationals and non-profits alike. Finally, she worked seamlessly well with her assigned teams, which included a diversity of cultures and personalities.

We have been lucky and grateful to have had Bela as an intern, particularly given that she has been working on topics that most young architecture students would have found challenging.

We look forward to watching (and hopefully staying connected with) what promises to be a very bright and meaningful career.

Respectfully,

  
Raefer Wallis

1<sup>st</sup> January 2021

This is to certify that **Ms. Divya Garg**, student of **SMEF's Brick School of Architecture, Pune** has successfully completed an academic internship at our studio – **rat[LAB]-Research in Architecture & Technology** ([www.rat-lab.org](http://www.rat-lab.org)). The internship started on **1<sup>st</sup> July 2020** and culminated officially on **31<sup>st</sup> December 2020** (6 months) as per agreements.

The apprenticeship was subjected to regular performance reviews and guidance to oversee her professional growth. During her tenure of internship, the candidate handled various projects and studio tasks as per company standards and requisites, dealing with Working Drawings, Presentation Drawings, Ideations, Visualizations, and writing tasks, to which she adapted well. Divya fulfilled her roles and responsibilities with due diligence during this period and involved herself in all office works with utmost honesty and enthusiasm to learn.

Divya's key contribution was an **Editor** for our upcoming book on **Computational Design** which allowed her to attend various online workshops on Design technology and transcript them as academic chapters in the book. The book would be released soon in 2021 to a global audience and her contribution & role in the same would be highly valued.

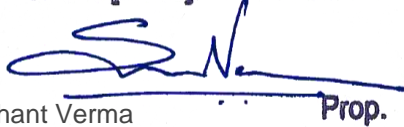

Divya came across as a very hard working person and committed herself fully to all the roles that studio required from time to time and demonstrated adaptability for all tasks to learn a multitude of aspects as an architectural design intern.

This letter can be considered as a proof of record of her works at our studio and we wish her all the best for her future endeavors.

*IMP: Due to the current pandemic outbreak, the office had major operational shifts in 2020 into a remote-working setup and the entire duration of internship was carried out remotely on a work-from-home basis. The studio took all measures to ensure an uninterrupted workflow and candidate was expected to co-operate and adjust as per new working norms with full dedication in a work-from-home basis. The candidate performed par excellence in these challenging conditions and did all the work with utmost dedication and sincerity.*

### Internship Completion Letter

Date: November 24<sup>th</sup>, 2020

To: SMEF's BRICK School of Architecture, Pune, India

This is to certify that Ms. Bela Sunil Nigudkar has successfully completed her 6-month academic internship with our company, GIGA, from 4<sup>th</sup> May'20 to 30<sup>th</sup> Oct'20, under the guidance of Ar. Raefer Wallis.

As part of the internship Bela worked primarily as a Research Associate and contributed to key projects such as the development of the RESET Index. She also worked meticulously on collaborations with design firms such as M Moser Associates Library with respect to helping score their product library for health and sustainability attributes, think-tanks such as the Healthy Building Network (HBN) on Common Product Profiles, and mindfulMATERIALS for evaluation of the IGBC GreenPro+ system with HKS India. She was also responsible for researching content for the evolution of modules within the RESET Standard, particularly with respect to water and materials, as well as co-ordinating meetings & tasks with client firms.

Throughout the Internship, Bela was consistently diligent in her approach, demonstrating initiative and a tremendous capacity to absorb and make sense of new fields of research. Her work was immediately and continuously useful, done on time and with efficiency. Of equal importance, Bela demonstrated a wonderful work ethic, bringing positivity, competence and an eagerness to learn new things. As part of her projects she was regularly added to meetings with clients and collaborators, often presenting the results of her research to Global Directors and CEOs of multi-nationals and non-profits alike. Finally, she worked seamlessly well with her assigned teams, which included a diversity of cultures and personalities.

We have been lucky and grateful to have had Bela as an intern, particularly given that she has been working on topics that most young architecture students would have found challenging.

We look forward to watching (and hopefully staying connected with) what promises to be a very bright and meaningful career.

Respectfully,

Raefer Wallis
